WORK EXPERIENCE

Since Sep.2023

Gematik GmbH

SENIOR SOFTWARE DEVELOPER · Remote (Berlin)

Responsible for the architecture and technical strategy of multiple Android apps and connected backend services in the e-health domain.

- Design and review of system and interface architectures (FHIR-based services, KMP modules, CI integrations).
- Technical lead for external projects and advisory for other teams on architecture decisions, build systems, and testing strategies.
- Introduction of standardized architecture principles per ISAQB CPSA-F and conducting internal training sessions on the same.
- Evolution of the CI/CD infrastructure through modular Gradle plugins and shared pipelines across multiple products.
- Team lead, responsible for release cycles and presenting releases within the organization.

Jan.2022–Aug.2023

IBM-IX DACH

SENIOR DEVELOPER · Remote (Berlin)

- Developed the Maternity Pass feature for expectant mothers and led a Flutter initiative to modernize time tracking, including backend with Python/Django.
- Collaborated with iOS engineers and leveraged Kotlin Multiplatform and SwiftUI for cross-platform development.

Jul.2019–Dec.2021

Rewe Digital GmbH

SOFTWARE DEVELOPER · Köln

- Fullstack development with Android SDK, Kotlin, TypeScript, Node.js, REST and Firebase.
- Design and improvement of scalable software architectures using patterns such as MVVM, MVP and MVI.

Nov.2016–Jun.2019

Authada GmbH

SOFTWARE DEVELOPER · Darmstadt

- Developed the certification für die Android App.
- Migration von Java zu Kotlin unter Verwendung von Clean Code und MVP.

UNIVERSITY EDUCATION

2014-2017

Electric Eng und IT

M.Sc · Technische Universität Darmstadt

2006-2010

Electric Eng

B.E · Anna Universität

PUBLICATIONS

2017

Exercise Monitoring On Consumer Smart Phones Using Ultrasonic Sensing.

2018

Fitness Activity Recognition on Smartphones Using Doppler Measurements.
